

**JRFB Working Group on
Science Framework Proposal Requirements and Assessments
April 30, 2021 – Virtual Meeting**

Roster

Ken Miller	Chair	Rutgers University
Cara Burberry	Member	University of Nebraska-Lincoln
Gail Christeson	Member	SEP Co-Chair
Sean Gulick	Member	University of Texas at Austin
Susan Humphris	Member	Woods Hole Oceanographic Institution
Lisa McNeill	Member	SEP Co-Chair
Dick Norris	Member	Scripps Institution of Oceanography
Brandi Reese	Member	Dauphin Island Sea Lab
Jamie Allan*	Ex Officio	National Science Foundation
Donna Blackman	Ex Officio	<i>Chikyu</i> IODP Board
Brad Clement	Ex Officio	<i>JOIDES Resolution</i> Science Operator
Dick Kroon	Ex Officio	IODP Forum
Mitch Malone	Ex Officio	<i>JOIDES Resolution</i> Science Operator
Charna Meth	Ex Officio	IODP Science Support Office
Clive Neal	Ex Officio	<i>JOIDES Resolution</i> Facility Board
Sasha Turchyn	Ex Officio	ECORD Facility Board
Karen Stocks	Guest	IODP Science Support Office
<i>*not present</i>		

Consensus Statements

Consensus Statement 1: The WG-SFP recommends that only one workshop report serve as a Flagship Initiative guiding document at a time. If multiple workshops occur, then those teams should work together to create a single workshop report. A higher-level group, similar to the current IODP Forum, might also be needed to set direction in this area or resolve conflicts.

Consensus Statement 2: WG-SFP recommends opening workshop reports to feedback from the broad community. Flagship Initiative workshop reports would be submitted to a central science support office that would (1) confirm that the report meets the requirements and (2) post the report online for additional community feedback. The Flagship Initiative workshop conveners would then revise the report as needed.

Consensus Statement 3: The WG-SFP endorses establishing an entity with a similar function as the current EPSP to carry out site-by-site reviews of proposed or scheduled expeditions from the point-of-view of safety and environmental protection.

Consensus Statement 4: The WG-SFP recommends that Flagship Initiative workshop reports include a plan for sharing data across expeditions.
